Welcome to Beyond the Bell

Thank you for registering your child in Beyond the Bell! We look forward to getting to know you this school year. Beyond the Bell runs for 2 hours after class dismissal. Leaders and students will walk to ARC (Abbotsford Recreation Centre) for pick-up at the end of the day. Beyond the Bell is available for students attending kindergarten to grade five at McMillan Elementary. Students will participate in activities geared towards creative expression, learning, discovery, fundamental movement skills, and overall health and well-being. They will spend time playing outside, learning new skills in gymnasium and exploring their creativity through games and crafts in our multi-purpose rooms. Each month we focus on a new theme such as gardening, superheros, under the sea, space and more! We are committed to ensuring that your child will have a positive experience.

We believe that every child has a special style, personality, and potential which makes him/her a unique individual. We facilitate and lead experiences that encourage creativity, physical literacy and play through a variety of structured and unstructured recreational experiences. We understand the importance of fostering positive recreational experiences for the healthy development of your child. We incorporate a variety of concepts of play that are proven to result in positive developmental experiences for children.

Recreation Based Play: As a recreation based program we encourage the participation in a variety of recreational experiences. The opportunities are endless but some include: arts and crafts, reading, and playing games. Your child(ren) will be encouraged to engage in a variety of these experiences that enhance their overall wellbeing.

Physical Literacy: Physical Literacy promotes children to master their fundamental movement skills. These skills allow them to become more confident in their physical abilities and become active for life!

Outdoor Adventurous Play: This type of play encourages children to engage in thrilling and exciting forms of outside play where they are able to test their limits. Encouraging this type of play fosters positive developmental experiences for children resulting in benefits to their cognitive, social and physical wellbeing. Some examples of this include: playing at high speeds, with heights, near elements, and rough and tumble play. This play concept is practiced with trained leaders who are able to identify hazards and assist children in setting boundaries.
