

**Looking for ways to lower your water bill? Get started with a free irrigation & landscape assessment!**

# **IRRIGATION & LANDSCAPE**

## **Water Efficiency Program**

**Learn how to make your landscape more water efficient.**

**PLUS** if you convert 50% of your landscape to waterwise plants and/or amend your soil to improve water efficiency you will be eligible for a **\$250 rebate** when you spend \$500 or more.\*

Or you can receive a **\$250 rebate** for a climate-based irrigation controller when installed by a Certified Irrigation Contractor.\*

**\*You must sign up for an assessment before applying for the rebate. Funding is limited and based on first come, first served. NOTE: Assessments will be conducted with appropriate social distancing measures in place.**

# ABBOTSFORD & MISSION

## Water Shortage Response Plan

Abbotsford and Mission's water restrictions follow four stages, which are tied to the level of Dickson Lake. Dickson Lake is the main source of drinking water for both communities. As the level of the lake gets lower, restrictions get higher.

Water restrictions start on May 1. Summer water demands can be higher and with more people at home this year, we could be using a lot of extra water!

Water restrictions are in place to benefit the whole community and ensure that we continue to have a reliable quantity of water all season. Conserving early helps keep the lake level high, so we don't have to move to a higher stage later in the summer.

## STAGE ONE

### Restrictions are NOW IN EFFECT!

Lawn sprinklers are permitted to water grass **TWICE** a week, mornings only, between 6 - 8 am.

- **Even addresses:**  
Wed & Sat.
- **Odd addresses:**  
Thurs & Sun.
- **Gardens can be watered as needed with a watering can or a hose equipped with a spring loaded shut-off device.**
