

The following information may be required to be provided with your submission drawings (where applicable). Consult with your Pool Installer for more information.

SWIMMING POOL APPLICATION GUIDE

Page 1 of 1

Civic Address: _____

The questions below outline additional information that may be required to be addressed and/or included with permit submission(s) for review. Please select all that apply to your project.

SCOPE OF WORK

1. Please indicate the type of pool filtration system to be used:

Sand Filtration System with Backwash – Proceed to question 2.

Cartridge Filtration System – Proceed to question 3.

2. Sand Filtration System will require a drain to be indirectly connected to a floor drain. Select the option to be used and identify the permit requirements below:

Floor drain will be connected to the sanitary system via a minimum 3" vented trap. **Submit the required Plumbing – Fixture Permit application.**

Floor drain will be connected to a rock pit or infiltration system (dependent on lot size). **A signed and sealed engineered design plus Schedule B and C-B will be required from a Registered Geotechnical Engineer. Submit the required Plumbing – Site Service Permit application.**

3. Will the swimming pool have an auto fill feature (Y/N)?

YES – A Backflow assembly is required. **Submit the required Plumbing – Fixture Permit application.**

NO – A hose bib with an atmospheric vacuum breaker will be required.

4. Will the swimming pool be located within 20 meters of a slope greater than 20% (Y/N)?

YES – **Submit a Geotechnical Schedule B including slope stability.** The Geotechnical Engineer must also provide the accompanying Geotechnical Report with analysis addressing site conditions as well as potential accidental sudden discharge of pool water.

NO – Proceed to apply with documentation listed on the **Submission Checklist – Swimming Pool.**
