

INFORMATION BULLETIN

City undertaking additional staffing changes

ABBOTSFORD - March 27, 2020: Approximately 120 auxiliary recreation staff no longer scheduled for work due to the temporary closure of City recreation facilities will receive lay-off notice today. All City of Abbotsford recreation centres were closed to the public earlier this month to support social distancing and efforts to flatten the curve of COVID-19.

All affected staff will be provided with a Record of Employment from the City of Abbotsford making them eligible to apply for Employment Insurance and other supports from the federal and provincial governments. The City of Abbotsford will continue to maintain contact with these workers to ensure there can be an efficient transition back to work when the current health emergency comes to a close.

The City of Abbotsford is committed to maintaining a high level of essential services for residents through the entire COVID-19 event.
